### QUALITY POLICY STATEMENT

Nathoo Mbenyane Engineers (Pty) Ltd commits itself to remain a respected member of the consulting engineering fraternity and is responsible for Civil, Structural and Engineering Project Management. The Directors, Management and Staff of Nathoo Mbenyane Engineers hereby commit themselves to provide innovative engineering solutions and excellent service which conforms to the quality and reliability of standards expected by clients. This is in line with the vision to be the provider of Value Engineering and Project Management solutions in the Built environment.

To demonstrate firm commitment to the Business Management System, top management and employees of Nathoo Mbenyane Engineers have ensured that:

- The Business Management System is established and implemented, in line with the ISO 9001:2015 standards.
- All identified statutory, regulatory and customer requirements are met.
- The Quality Objectives are measurable to achieve sustainable development and cost – effective resource use.
- The Quality Policy is periodically reviewed and is still relevant, appropriate and effective to the purpose of the organisation.
- The Quality Objectives are periodically reviewed.
- The BMS is a vital part of operations by conducting performance monitoring and measurement.
- The needs and expectations of interested parties are addressed. All stakeholders and employees are engaged through open communication, education and training, motivating and developing them on the BMS requirements.
- All external providers incorporate the BMS into their operations, to achieve the Quality Objectives throughout our value chain.
- Adequate resources are provided for the BMS's continual improvement to ensure a factual approach to all decision making.
- The Quality Policy is communicated and understood within the organisation and other interested parties.

Mr N.K Nathoo  
Chief Executive Officer
